DECLARATION

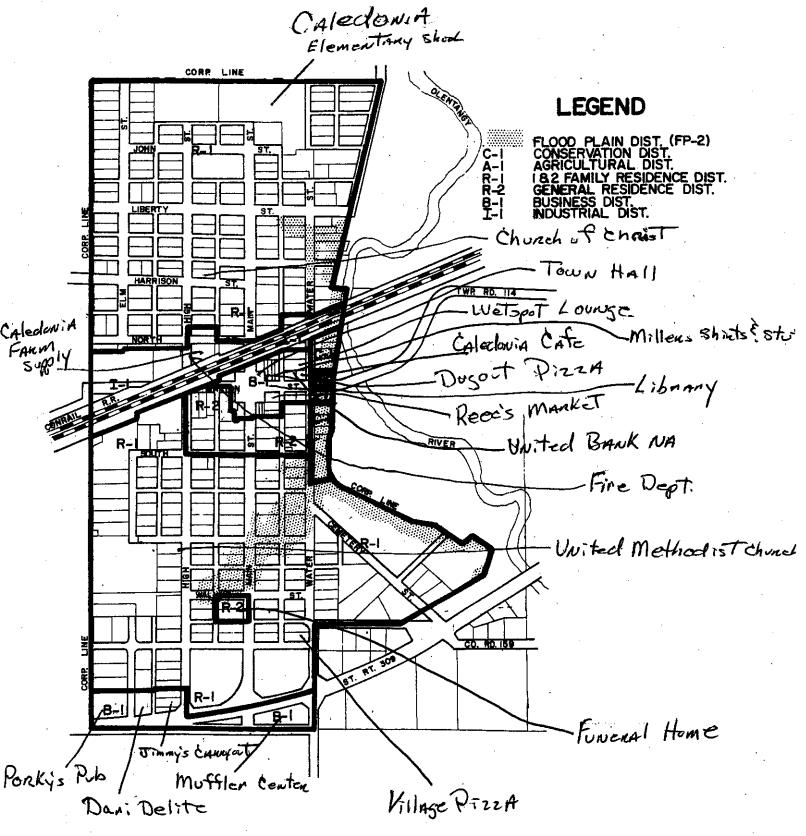

- I, Michael A. Gist, declare as follows:
 - 1. I am an Account Executive with Clear Channel.
- 2. The attached Zoning Map was obtained by me from Marion County. The outer heavy black border indicates the boundaries of the incorporated area of Caledonia, Ohio. Also shown on the map are the different zoning designations (residential, business, industrial, etc.) within the incorporated area of Caledonia.
- 3. I visited Caledonia on March 21, 2003. Based on my Visit and personal knowledge (I attended Caledonia Elementary School and still live nearby), I have indicated in handwriting on the Zoning Map the locations within Caledonia's incorporated limits of various municipal, civic and business establishments, which serve the needs of the residents of Caledonia. Also attached are photographs taken on March 21,2003, of several of these establishments. The photographs also include the sign -- located on Main Street in Caledonia (south of the square marked "B-1") -- in front of President Warren G. Harding's boyhood home.

I hereby declare under penalty of perjury that the statements made in this declaration are true and accurate to the best of my knowledge, information and belief.

RULE MAKING
TO AMEND THE FM TABLE OF ALLOTMENTS

UPPER SANDUSKY, OHIO CALEDONIA, OHIO

Technical Narrative

This technical narrative and accompanying Figure 1 have been prepared on behalf of station WYNT (FM), Upper Sandusky, Ohio, in support of Reply comments related to the proposal to amend 47 C.F.R. Section 73,202(b) to reallot channel 240 A (3 kw) at Upper Sandusky, Ohio to channel 240 A (full 6 kW class A) at Caledonia, Ohio.

A comparison analysis has been made of the geographic area and population served by the present facilities of WYNT (FM) (License No. BLH-19861010KD) and WXML (FM), Upper Sandusky, Ohio (License No. BLED-19930128KC),

Of the 1,822 square kilometers currently served by WYNT, WXML serves 1,734 square kilometers of that area, or 95% of the geographic area presently served by WMNT.'

Of the 44,725 persons currently served by WYNT, WXML serves 43,725 of those persons, or 97% of the population presently served by \windextrm{WYNT.}\frac{1}{2}

¹ The FM predicted coverage contour (1 mV/m) were calculated in accordance with the provisions of 47 C.P.R. Section 73.313, except that, in accordance with current FCC practice, uniform terrain was assumed in all directions The population within the FM primary service contour (1 mV/m) was calculated using a computer program that utilizes the 2000 U.S. Census database of "population centroids". The program adds the populations of those U.S. Census designated areas whose centroid lies within each service area.
